of Alentejo

## Production Capacity Expansion and Modernization Project

MULTILEM – Design e Construção de Espaços, S.A.

Vila Nova da Rainha, Azambuja, Alentejo

Multilem's Production Capacity Expansion and Modernization Project aims to expand and modernize the company's production capacity through the integration of Industry 4.0 technologies, digitalization, automation, and circular economy principles.

The project seeks to optimize processes, increase efficiency, improve sustainability, and strengthen competitiveness in international markets.

Expected results include increased production capacity, the creation of qualified jobs, export growth, and the reduction of resource consumption and environmental impact.

The operation is financially supported by the European Union under Portugal 2030 and the Alentejo Regional Programme.

**Total Investment**

864,629.69 €

**European Union  
Financial Support**

302,620.39 €

**EU Co-financing Rate**

35%
